# Introduction and Vision

Giant Token (\$GTAN) is not simply a cryptocurrency. It is a movement -- a purpose-driven blockchain ecosystem built from Awka, Anambra State, Nigeria, for Africa, and for the world. Launched in April 2023, \$GTAN was conceived with a single conviction: that decentralised finance should serve not just those who already have, but those who need it most.

From its first day of trading on Binance Smart Chain, Giant Token embedded a charitable mechanism directly into its smart contract -- ensuring that every single transaction automatically contributes to the Giant Token Charity Foundation and the communities it serves across Nigeria.

## OUR CORE CONVICTION

***"Blockchain technology is the most powerful tool for financial inclusion ever created. Giant Token exists to prove that it can also be the most powerful tool for social good."***

CHARITY	COMMUNITY	AFRICA-FIRST
Registered NGO with over N5M distributed to widows, the elderly, churches and grassroots communities across Nigeria.	19,000+ organic holders built through trust and transparency -- not paid marketing or artificial pumps.	Built in Awka, Anambra State, Nigeria by Africans who understand the communities they serve.

# What Is Giant Token

Giant Token (\$GTAN) is a BEP-20 utility token deployed on Binance Smart Chain. Designed as a multi-utility asset combining store of value, charitable giving, community rewards, and decentralised finance tools into a single cohesive ecosystem.

**IMPORTANT:** \$GTAN does NOT use a reflection mechanism. Any third-party sources stating otherwise are incorrect. All \$GTAN transfers including wallet-to-wallet sends trigger the 4% sell tax by smart contract design.

## KEY TOKEN FACTS

Token Name	<b>GIANT</b>	Network	<b>Binance Smart Chain (BEP-20)</b>
Ticker	<b>\$GTAN</b>	Decimal	<b>9</b>
Total Supply	<b>400 Trillion</b>	Circulating Supply	<b>~372 Trillion</b>
Buy Tax	<b>3%</b>	Sell Tax	<b>4%</b>
DEXTools Score	<b>94 / 100</b>	Audit	<b>ContractWolf -- GitHub</b>
CoinGecko	<b>Listed</b>	CoinMarket Cap	<b>Listed</b>
Smart Contract	<b>0xbD7909318b9Ca4ff140B840F6 9bB310a785d1095</b>		

# Giant Token Ecosystem Ltd

Giant Token Ecosystem Ltd is a formally incorporated Nigerian technology company registered under the Companies and Allied Matters Act 2020 by the Corporate Affairs Commission (CAC) of the Federal Republic of Nigeria, headquartered in Awka, Anambra State. Within 24 hours of incorporation, the company received its Certificate of Registration from the Special Control Unit Against Money Laundering (SCUML), confirming full AML and CFT compliance.

<b>CAC INCORPORATED</b>	<b>SCUML CERTIFIED</b>	<b>D&amp;B; DUNS APPROVED</b>
Registered under CAMA 2020. Corporate Affairs Commission. Federal Republic of Nigeria. April 2026.	Certified under the Money Laundering (Prevention and Prohibition) Act 2022. Issued by EFCC-SCUML.	Dun and Bradstreet DUNS Number approved. Global business identity. Apple Developer Program eligible.

## GLOBAL MEDIA RECOGNITION -- CHAINWIRE PRESS RELEASE

April 2026: 16 out of 16 prime placements -- 458M+ audience -- Average DA 63

<b>Business Insider</b>	<b>DA 94</b>	6M+ audience
<b>CoinMarketCap</b>	<b>DA 92</b>	74M+ audience
<b>Investing.com</b>	<b>DA 91</b>	129M+ audience
<b>TradingView</b>	<b>DA 91</b>	229M+ audience
<b>Benzinga</b>	<b>DA 88</b>	5M+ audience
<b>CryptoSlate</b>	<b>DA 66</b>	596K+ audience
<b>TipRanks</b>	<b>DA 63</b>	7M+ audience
<b>CryptoBriefing</b>	<b>DA 61</b>	214K+ audience

# Tokenomics

\$GTAN was launched with a fixed total supply of 400 trillion tokens. No new tokens can ever be created. The circulating supply decreases continuously through a built-in burn mechanism on every transaction, creating natural scarcity over time.

<p><b>400</b> <b>Trillion</b></p> <p>Total Supply</p> <p>Fixed. No new minting.</p>	<p><b>~372 Trillion</b></p> <p>Circulating Supply</p> <p>Per BSCScan.</p>	<p><b>~28 Trillion</b></p> <p>Burned to Date</p> <p>Burned every transaction.</p>
---	---	---

## TOKEN DISTRIBUTION

<b>Presale and Liquidity</b>	<b>92%</b>	Primary market -- locked liquidity pool
<b>Future Development</b>	<b>2%</b>	Ongoing ecosystem development funding
<b>Marketing</b>	<b>2%</b>	Community growth and brand awareness
<b>Charity</b>	<b>1.5%</b>	Giant Token Charity Foundation allocation
<b>Team</b>	<b>1%</b>	Core team -- vesting applied
<b>Owner</b>	<b>1%</b>	Founder allocation
<b>Community Giveaway</b>	<b>0.5%</b>	Community rewards and airdrops

## TAX STRUCTURE

<p><b>BUY TAX: 3%</b></p> <p>1% Liquidity . 1% Charity . 1% Marketing</p>	<p><b>SELL TAX: 4%</b></p> <p>1% Liquidity . 1% Charity . 1% Marketing . 1% Burn</p>
---	--

# Giant Wallet

Giant Wallet is a free, non-custodial Web3 mobile wallet available on Android via the Google Play Store. It enables users to store, send, receive, swap, and gift \$GTAN, BNB, USDT, ETH, RWA and other assets across BSC, Ethereum, and AssetChain from a single unified interface.

## FEATURES

<b>BSC Multi-Token Support</b>	Store, send, receive all BEP-20 tokens including \$GTAN
<b>Ethereum Mainnet</b>	Full ETH and ERC-20 token support -- integrated and live
<b>AssetChain (RWA)</b>	Nigerian blockchain -- AC20 token standard -- integrated
<b>Giant Gift (G-Gift)</b>	Africa's first blockchain social gifting feature -- live V2.1.0
<b>Token-to-Token Swap</b>	PancakeSwap V2 and Uniswap V2 -- 0.5% platform fee
<b>Biometric Security</b>	Fingerprint authentication and 6-digit PIN lock
<b>DApp Browser</b>	Full Web3 DApp browsing with wallet injection
<b>Multi-Wallet Support</b>	Create or import multiple wallets -- full key control
<b>Nigerian RPC Fix</b>	Multiple RPC fallbacks resolving ISP blocking issues
<b>Import Custom Tokens</b>	Add any token by contract address
<b>Chain Switching</b>	Switch between BSC, ETH, AssetChain with one tap
<b>Auto Slippage (coming)</b>	GoPlus API integration -- V2.2.0
<b>Private Key Export (coming)</b>	Secure export with biometric protection -- V2.2.0
<b>Giant Market (coming)</b>	In-app token discovery and market data -- V2.3.0
<b>Giant Pay (coming)</b>	Merchant payments with QR and payment links -- V2.3.0
<b>iOS Version (coming)</b>	Apple Developer Program enrollment in progress

<b>Solana (coming)</b>	Chain integration planned 2026
<b>Base (coming)</b>	Chain integration planned 2026

## Giant Gift (G-Gift)

G-Gift is Africa's first blockchain social gifting feature launched in Giant Wallet V2.1.0. Users create a token gift pool with \$GTAN or BNB, generate a unique Gift Code, and share it anywhere. Recipients open Giant Wallet, enter the code, and claim their share instantly -- all secured by the GiantGift smart contract on BSC.

STEP 1 Create	STEP 2 Share	STEP 3 Claim	STEP 4 Refund
Select token, amount, recipients, Equal or Random split, expiry 1-48 hours, message. 1% protocol fee.	Copy unique Gift Code e.g. GIANT-7X9K. Share on WhatsApp, Telegram, X or any platform.	Recipients enter code. One claim per wallet enforced on-chain. Tokens arrive instantly.	Unclaimed tokens auto-returned to creator wallet on expiry. No manual action required.

EQUAL SPLIT	RANDOM SPLIT
Every recipient receives an identical share. Ideal for community airdrops, team payouts, and transparent group distributions.	Each recipient receives a surprise amount. Perfect for celebrations, Africa's spraying traditions, and lucky draws.

# Giant Pay

---

Giant Pay is a merchant payment feature being developed inside Giant Wallet. It allows merchants, freelancers, market traders, and businesses to accept \$GTAN and USDT using a simple QR code or shareable payment link -- with automatic real-time Naira-to-GTAN price conversion and automatic tax and gas fee calculation.

<b>PHASE 1 - V2.3.0</b>	Merchant QR Code, Payment Link Generator, Auto Price Calculator, Payment Confirmation, Transaction History
<b>PHASE 2 - V3.0.0</b>	Merchant Dashboard, Analytics, Recurring Payments, Multiple Staff Accounts, Charity Round-Up Per Transaction
<b>PHASE 3 - Future</b>	Giant Pay API, Naira Bank Settlement via Bitnob or Yellow Card, Website Payment Button, NFC Tap to Pay (iOS)

Every Giant Pay transaction contributes to the Giant Token Charity Foundation through the platform fee structure -- commercial payments on Giant Wallet simultaneously support Africa's most vulnerable communities.

# Giant Launchpad

Giant Launchpad ([giantlaunchpad.com](https://giantlaunchpad.com)) is a community-driven project launch platform providing a transparent environment for emerging blockchain projects. Minimum 55% liquidity to PancakeSwap is enforced on every launch -- protecting investors from low-liquidity launches. All projects undergo a thorough review process.

## LAUNCH TYPES

<b>PRESALE</b>	Creator sets hard cap and soft cap. If soft cap is NOT met by deadline -- every participant receives a full automatic BNB refund to their wallet in minutes. If hard cap is reached the project launches with full liquidity locked to PancakeSwap.
<b>FAIRSALE</b>	A fairer alternative -- no fixed price. Every participant receives tokens proportional to their contribution regardless of entry time.
<b>VESTING</b>	Project creators can set up token vesting schedules -- distributing tokens to presale or fairsale participants over a defined time period. This prevents immediate sell pressure after launch and builds long-term holder confidence.

## INVESTOR PROTECTION

<b>55% Minimum Liquidity</b>	Enforced by the platform contract. At least 55% of raised funds must be added as liquidity to PancakeSwap. Cannot be bypassed by any project creator.
<b>Soft Cap Refunds</b>	If presale soft cap is not reached, participants claim a full BNB refund directly from the contract in minutes. No customer support required.
<b>Project Review Process</b>	All projects undergo identity verification and thorough vetting before listing -- reducing the risk of fraudulent projects.

## GTAN STAKING

Giant Launchpad offers \$GTAN holders the ability to stake tokens and earn rewards. Staking rewards are funded by a percentage of Giant Launchpad revenue -- used to buy back \$GTAN from the open market and distribute it proportionally to active stakers. This creates a virtuous cycle: Launchpad revenue drives buybacks, buybacks reward stakers, stakers hold longer, circulating supply decreases.

**FIXED STAKING**

**FLEXIBLE STAKING**

Lock \$GTAN for a fixed period. Options: 1 Month, 2 Months, or 3 Months. Higher lock periods earn higher reward percentages. Tokens are locked and cannot be withdrawn before the period ends without incurring a penalty fee.

Stake \$GTAN for shorter flexible periods: Days or Weeks. You can claim or cancel at any time. However early withdrawal incurs a penalty fee deducted from your staked amount. Flexible staking earns a lower rate than fixed staking.

# Giant Token Charity Foundation

The Giant Token Charity Foundation is a formally registered NGO in Nigeria -- the oldest entity in the Giant Token Ecosystem. Established before the CAC incorporation of Giant Token Ecosystem Ltd, it operates with a dedicated NGO bank account, a multi-state ambassador network, and a documented track record of real community impact.

<b>N5M+</b> Distributed to Date	<b>19K+</b> GTAN Holders Contributing	<b>Multi-State</b> Ambassador Network Active
------------------------------------	--	---

## THE CHARITY FLOW

**\$GTAN Transaction >> Tax Auto-Allocated on BSC >> BNB Accumulates >> Converted to Naira >> Foundation Bank Account >> Ambassador Network >> Beneficiaries on the Ground**

<b>Widows</b>	Direct financial support to widows across Nigerian communities
<b>The Elderly</b>	Food, welfare, and care support for senior citizens
<b>Church Communities</b>	Supporting church evangelical projects and pastoral welfare
<b>Families in Need</b>	Emergency assistance to underprivileged families
<b>Local Communities</b>	Grassroots programs across multiple Nigerian states

## Multi-Chain Ecosystem

---

Giant Wallet supports multiple blockchain networks from a single unified interface. Users switch between chains with one tap, view combined balance across all chains simultaneously, and swap tokens on each network using the appropriate DEX router.

<b>BSC</b>	<b>Integrated</b>	Chain ID 56. PancakeSwap V2 router. Primary network since launch.
<b>Ethereum</b>	<b>Integrated</b>	Chain ID 1. Uniswap V2 router. Full ETH and ERC-20 support.
<b>AssetChain</b>	<b>Integrated</b>	Chain ID 42420. EVM compatible. Nigerian blockchain by Xend Finance (Binance and Google backed). RWA token (AC20) standard.
<b>Solana</b>	<b>Planned 2026</b>	High-speed low-cost blockchain. Expanding to Solana DeFi ecosystem.
<b>Base</b>	<b>Planned 2026</b>	Coinbase Layer 2. Access to Coinbase ecosystem and Base DeFi.

# Security and Compliance

---

## **ContractWolf Audit**

\$GTAN smart contract independently audited by ContractWolf. Full report on GitHub under ContractWolf/smart-contract-audits. All critical and high-severity issues resolved before launch.

## **Non-Renounced Contract**

Contract owner deliberately chose NOT to renounce the contract. This strategic decision allows the team to respond to threats, recover mistakenly sent tokens, and adapt to future challenges. Communicated transparently to the community.

## **Locked Liquidity**

Over \$290,000 in liquidity locked on-chain. Provides price stability and prevents rug-pull scenarios. Verifiable on BSCScan.

## **SCUML Certification**

Giant Token Ecosystem Ltd holds a SCUML Certificate of Registration confirming compliance with Nigeria's AML and CTF framework.

## **Giant Wallet Non-Custodial**

Private keys stored exclusively on the user's device. Never transmitted to any server. Biometric and PIN protection standard.

## **Launchpad Investor Protection**

Minimum 55% liquidity enforced. Full BNB refund if soft cap not met. Projects undergo a review process before listing.

# Roadmap

---

## COMPLETED MILESTONES

- CHECK \$GTAN smart contract deployed on BSC -- April 2023
- CHECK ContractWolf security audit completed and published
- CHECK CoinGecko listing
- CHECK CoinMarketCap listing
- CHECK DEXTools trust score: 94 out of 100
- CHECK Giant Wallet V1.0.0 on Google Play Store
- CHECK Giant Wallet V2.0.0 -- complete UI redesign
- CHECK Giant Wallet V2.0.1 -- token-to-token swap
- CHECK Giant Wallet V2.1.0 -- G-Gift launched (Africa's first blockchain social gifting)
- CHECK Ethereum Mainnet integrated into Giant Wallet
- CHECK AssetChain (RWA) integrated into Giant Wallet
- CHECK Giant Token Charity Foundation registered as NGO
- CHECK N5,000,000+ distributed to communities across Nigeria
- CHECK Ambassador network across multiple Nigerian states
- CHECK Giant Token Ecosystem Ltd incorporated (CAC) -- April 2026
- CHECK SCUML Certificate of Registration -- April 2026
- CHECK Dun and Bradstreet DUNS Number approved -- April 2026
- CHECK Chainwire press release -- 16 outlets -- 458M+ audience
- CHECK Featured: Business Insider, Investing.com, CoinMarketCap, TradingView, Benzinga
- CHECK FIPO trademark applications filed for \$GTAN, Giant Wallet, Giant Launchpad
- CHECK 19,000+ organic holders
- CHECK 450,000+ API requests per 30 days at 97.3% health rate
- CHECK Giant Launchpad presale, fairsale, vesting and staking platform live

## UPCOMING MILESTONES

- > Giant Wallet V2.2.0 -- Auto Slippage, Private Key Export, Token Spraying
- > Giant Wallet V2.3.0 -- Giant Market, Giant Pay V1
- > Giant Wallet V3.0.0 -- Multi-Language, iOS, Giant Pay Naira Settlement
- > Solana chain integration
- > Base chain integration
- > Apple App Store listing (iOS Giant Wallet)
- > Giant Pay Naira settlement via Bitnob or Yellow Card
- > Giant Token Payment API -- developer SDK and documentation
- > BNB Chain MVB Program application
- > Additional CEX exchange listings
- > Binance Charity Foundation and UNICEF Venture Fund partnership applications
- > cNGN Nigerian Naira stablecoin default token integration

# Team

---

Giant Token Ecosystem is built by a growing team of passionate builders, developers, community managers, and designers united by a shared mission. For the complete and up-to-date team profiles visit [gianttokens.org/team](https://gianttokens.org/team)

**Prophet Emmanuel Okeke****Founder and CEO**

Minister of the Gospel, Web3 ecosystem builder, and visionary leader dedicated to building purpose-driven digital infrastructure that serves both people and principles. Certified blockchain developer with expertise in PHP, MySQL, and Java.

**Juliet Oluchi Ojoh****Community Education and Engagement Lead**

A finance professional with a strong Web2 foundation who is actively building and contributing within the Web3 and cryptocurrency space.

**Peculiar Richard****Founding Community Ambassador**

A passionate educator, researcher, and blockchain advocate who has been part of the Giant Token Ecosystem since its earliest days.

**Lixoti****Lead Smart Contract Developer**

Accomplished BSC Solidity smart contract developer and web applications developer with over 5 years of experience. Architect of the \$GTAN contract, Giant Wallet multi-chain infrastructure, and Giant Launchpad smart contracts.

The Giant Token Ecosystem team is continuously expanding. For the complete team directory and advisor profiles visit [gianttokens.org/team](https://gianttokens.org/team)

## Conclusion and Disclaimer

Giant Token (\$GTAN) has grown from an idea into a fully functioning blockchain ecosystem with real products, real users, real media coverage, and real charity impact. From a single token on BSC to a multi-chain ecosystem spanning BSC, Ethereum, and AssetChain -- from a whitepaper concept to a live app with 19,000+ holders and 450,000+ monthly API requests -- the journey has been one of consistent, intentional, community-centred building.

Giant Pay, the Giant Token API, multi-language support, iOS, Solana, Base, Naira settlement, charity partnerships and exchange listings are all in active development. The vision of Giant Token becoming the blockchain infrastructure layer for African commerce and charitable giving is within reach.

To every \$GTAN holder, every Giant Wallet user, every community member, and every believer -- this whitepaper is a record of what we have built together. And a promise of what we will build next. Built from Awka, Anambra State, Nigeria. Built for Africa. Built for the world.
